#### WELCOME TO OUR LITTLE PLACE IN HISTORY

- ♦ Since the Phoenicians invented beer more than 6000 years ago, the tavern has served as the clearing house for local information on trade, travel and industry. So important were these establishments to the economy of a nation that Hammurabi of Babylon, in 1770 B.C., passed the first laws regulating the sale of spirits by providing the death penalty for any person who watered down the beer they sold.
- ♦ Nearly every writer and philosopher of note has extolled the virtues of their favorite Tavern, but one of the best is by Dr. Samuel Johnson, the famous 19th Century British wit, who wrote: "There has never been anything contrived by man that has provided more pleasure that a good Tavern or Inn. It is truly man's second greatest indoor activity."
- ◆ George Washington, our first president, was a distiller and gave his farewell address to his officers in 1783 at the Queen's Head Tavern in New York City. So famous was this old Tavern that it is now a museum.
- ♦ The first idea for indepence was argued in a tavern and the Buckman Tavern in Lexington, Mass., was the site of a meeting that was to begin the Revolutionary War.
- Thomas Jefferson wrote the first draft of the Declaration of Independence in the Indian Queen Tavern near Philadelphia.
- Martin Van Buren, our 8th President, was born in his father's Tavern in Kinderhook, N.Y., and Abraham Lincoln once owned and operated a Tavern in Salem, Illinois.
- ♦ On November 10, 1775, the Marine Corps was founded by the Continental Congress allowing for two companies of men under the leadership of Captain Samuel Nicholas. Nearly all of the men were recruited at the famous Tun Tavern near Philadelphia. It was these two companies of Marines who supported George Washington on Christmas Eve of 1776 when he crossed the Delaware to surprise the Hessians in New Jersey.
- ♦ The Lantern of Lake Forest was opened in 1934 by Mike Lamorra. Since then the owners have included Earl Russell, James Peddle, Jack Hunke, Charlie Edwards, Mike Faulkner and Lou Taylor, Mike Downar and Don Tiffany. Your present hosts are Don and Irene Tiffany who welcome you to sit back and enjoy "The Best Burgers in Town" and more than fifty years of Lantern ambiance.

In 1886, the British physician, James Salisbury, prescribed a cure-all for Tuberculosis, Hardening of the Arteries, Gout, Colitis, Asthma, Bronchitis, Rheumatism, and Pernicious Anemia. He stipulated that well-done Ground Beef should be eaten three times a day and that a glass of hot water be drunk before and after each meal. Now, we can't attest to the theraputic value of our 85% lean Ground Chuck, but we do know that we serve...

Light Chunk Tuna with Swiss Cheese grilled on Light Rye	3.95

John Montagu (1718-1792) According to legend, John Montagu, the 4th Earl of Sandwich, was in the middle of a card game when he asked a servant to place some cold roast beef between two pieces of toast, so he could eat with one hand and play cards with the other.

Whether this is the truth or not, we can't say, but we are happy they named this little invention after his title and not his name. Can you imagine ordering a Tuna Montagu on whole wheat?

#### **MORE SANDWICHES**
