St. Francis Ice Cream Parlor

SINCE 1918

In 1918, our Founder, made ice cream by hand . . . churning fresh cream and sugar in a wooden tub packed with ice and salt.

Today we freeze and package ice cream using the finest and most expensive ingredients and cream. The result is an ice cream that is truly distinctive.

This same dedication to fine quality and high standards will be clearly evident here at the St. Francis, where delicious sandwiches and soups are pleasantly served with a variety of exciting and different ice cream dishes.
