The M/S Sea Venture featured a gold horse on the blue part of her funnel and looking simply sublime, she commenced her official cruise duties in June 1971.

Here we see the brand new M/S Sea Venture on her maiden call at Hamilton, Bermuda in June, 1971.

In 1977 the ship was transferred to Princess Cruises and continued a successful cruise operation from the USA.

The Much Loved "Love Boat":

In a very smart move, Princess Cruises agreed to have two of their ships widely featured in a new television romantic/comic sitcom named **"The Love Boat"** that debuted in 1977. The ship was featured in almost every episode of the series was the Pacific Princess (MS Sea Venture) and at times also her sister, the Island Princess.

The ever-popular Love Boat crew with Captain Stubbing and his happy crew!

The success of this popular TV show that remained on air until 1986 and is still shown in countless countries around the world every single day to this very day is mostly credited with the massive increase in the popularity of cruising around the world.
