BEERS

Nothing goes with hot island fun like an ice cold beer. We've shipped in our favorite brews from around the world including our own Aruba Red .Draft, a beer of legend...

THE LEGEND OF ARUBA RED

No one knows where she came from, but over 200 years ago she appeared, leading a pack of pirates spreading mischief and mayhem throughout the Caribbean. Nicknamed "Aruba Red" for her fiery red hair, she was as sly as she was fearless. She would slip aboard ships at sea in the dark of night, scouting for treasure. At sunrise, her pirate band would board the ship and make off with its valuables.

One moonlit night, she climbed aboard a ship where she encountered a handsome young brewer guarding kegs of a uniquely crafted beer—the most bracing concoction she'd ever tasted. Her eyes flashed in the moonlight, her scarlet tresses a radiant halo around her head, and in a moment, his heart was hers. To profess his undying love for her, the brewer scribbled the beer recipe on a scrap of canvas torn from the mainsail. Touched by this gesture, Aruba Red folded the cloth into a silver locket she wore on her neck. By the time dawn broke and the pirate ship neared, she knew that the only thing she cared to take from the ship was the young brewer, with whom she had fallen in love. As a farewell thanks to her pirate crew, the couple stacked the kegs of beer on the deck. Aruba Red penned a quick message telling the pirates to take the beer, but that there was nothing else aboard worth taking. Satisfied that his fellow passengers were safe, the brewer helped Aruba Red into her rowboat and they headed for land, never to be seen again.

Two centuries later, a vacationer snorkeling in the islands glimpsed a shiny object on the ocean floor, a silver locket engraved with the name ARUBA RED.

A brewmaster himself, he recognized at once the uniqueness of the ingredients listed on the recipe inside the locket, so he made it his quest to recreate this sunsetred brew. It is this tantalizing beer that you can now savor at Bahama Breeze.

BRUCE SMITH

For much of the past two decades, Bruce Smith has been sailing and painting the Caribbean. His unique view of West Indian life first appeared in mural form, adorning hotels and restaurants from Anguilla to Grenada.

More recently, he has been using his trademark medium, alkyd enamel, to make fine art, giving the viewer a brief glimpse of these fascinating islands and wonderful people who live there.

Limited edition prints by Bruce Smith are available at the Bahama Breeze Island Market.
