MAMMOTH CAVE NATIONAL PARK

MAMMOTH CAVE, one of the seven wonders of the New World, was established as a National Park for administration and protection in 1936; vast improvements have been made in the cave to make it more easily and pleasantly accessible, and on the surface to transform it into a popular playground. Two hotels, deluxe cottages and cabins provide splendid accommodations for Mammoth Cave guests.

Since the cave was opened to the public in 1816, several million people have viewed with wonder its amazing displays; it is estimated there are 175 miles of charted routes. Among the many named features are the famous Echo River with its blind fish, Ruins of Karnak, Mammoth Dome, Martha Washington Statue, Violet City, Star Chamber, Frozen Niagara, Onyx Colonnade, September Morn, and as late as October 1938 an entirely new area was found which, when fully developed, will add many more miles to the known parts of the cave.

An illustrated folder descriptive of the park and cave may be had by addressing General Passenger Agent, L. & N. R.R., Louisville, Ky.

The Bluegrass Region in Eastern Kentucky

One experiences a thrill in visiting this region, of which Lexington is the hub, a magic land of scenic beauty, romance, historical interest and tradition, where there are ante-bellum mansions, landscapes of ever-changing beauty, broad rolling pastures, and stately woodlands, especially colorful in autumn. In Lexington and vicinity are the numerous stock farms where many of the most famous race-horses were bred.
