Campus Dining Strives for Perfection

Inside Snowden Dining Hall. Photo courtesy of Google.

2000 swipes used per week. The students and full-time employees of the dining halls are all receiving food safety training, and all operations are run under HACCP (Hazard Analysis and Critical Control Points) which includes things such as proper hand washing, monitoring of cooking temperatures, knowing sources of the food, etc. When it comes to people with allergies, Chef Walt explained that employees at Campus Dining are getting trained on allergies every trimester. They are also trying to work very closely with people allergic to various products in order to accommodate them better in the dining halls.

Harbor View will receive a full renovation and is scheduled to be done by August 2013; however, this will not affect the daily operations of the dining hall. A renovation of Weybosset Cafe is in the early stages of planning; however, Sandblom hinted that we might see a new student lounge and convenience store in place in time for the next school year. A question about bringing additional chains was raised by a student, and Steve Sandblom replied that at Johnson & Wales we first like to utilize our culinary students. However, if more chains than just Starbucks is what the students want, then it is something for Campus Dining and the University to look at. Another question concerned the removal of Wing Friday at City Burger. This was done due to the massive demand of wings. City Burger does not have the infrastructure to serve wings to that many people, and in the end, the quality and service suffered.

If students have any questions, ideas, or concerns, the Campus Dining team can be reached by email or can be contacted at feedback.dining@jwu.edu.
CRIME LOG

Monday, March 26, 2012 at 11:04 am
A student was arrested by Providence Police at 12:40pm and charged with Disorderly Conduct and Resisting Arrest.

Crime Prevention Tips:
With the warm weather approaching, remember to secure your vehicle.
Roll up windows and lock the doors.
Remember to remove items of value from view.
Use Silent Witness at (www.jwu.edu/providence/safety) to provide anonymous tips or call 401-598-2847 to leave anonymous information.

THE STREET FEED

What do you think about the dining halls on campus?
"Overall they are pretty good and convenient to stop in and eat. Marketplace has a nice choice between the salad bar and the Red Sauce Pizza and they always play a good selection of music."
- Bryana Rodriguez, Hotel and Lodging Management, Freshman

Are the hours of operation convenient?
"They could be better. Most of them close at seven and on the weekends. It's tough to find a place to eat. Snowden, Harborview, and Red Sauce are the only options available. Other places on the Downcity campus like Marketplace, should consider staying open during Fri-Sun since the other places are usually packed."
- Paula Cadman-Mendozo, Hotel and Lodging Management, Freshman

What is something that could be improved, what is something that is good that should stay the same?
"Since JWU is well known for its Culinary program, students should be able to create their own dish or make suggestions throughout the week of choices they would like to have in the dining halls, like how they have salad and sandwich bars so that everyone can eat something or have some backup options."
- Gabrielle Correia, Counseling Psychology, Junior/Senior

What other improvements can be made to make it better?
"The hours should be longer and more dining halls should be open during the weekend. Also, some are open at awkward times with classes so they should be more flexible with all students' schedules."
- Kristen Myers, Sports Entertainment Event Management, Freshman

Spice Up the Office
Annie Chanon
Staff Writer

Last week as I was handing out invitations to our VIP's at this year's Leadership Awards, it led me to our University's President's office. During my visit, I discovered a really interesting fashion trend.

The ladies in the office had decided that every Wednesday they would match a color in their outfits. Last Wednesday during my visit, the color was purple and the ladies were all dressed up in different purple outfits.

The trend started about a year and a half ago when Eileen Hawkins, University Budget Director in the Yena Center, saw three ladies standing next to each other all wearing grey. For them it was just a coincidence, but they gave Eileen a fabulous idea. She decided to send out a "memo" to all her co-workers saying that next Wednesday would be their first matching color day, and so a new trend was set.

Not too long ago, Eileen decided to add a style to the color as well to make it even more interesting. For example, last week was silver & stripes. So you had to not only wear something silver, but something silver with stripes.

Eileen will send out a set 10 week chart for each color and style they should be wearing every Wednesday. About 50-60 faculty and staff members in different departments are participating every week, and to make it even more fun, they are competing department to department for who tried their best every week. They do this through taking a group photo every Wednesday with everyone who dressed up, and then they send it over to each other and decide from the photos which department implemented the style best.

Eileen describes how this trend has benefited the community in the office, how people from different departments now have an ice-breaker in the coffee room and get to know each other in a way they didn't before. Also, when she went to visit our Denver Campus not too long ago, she discovered that one of the ladies who used to work at the Providence Campus had implemented the trend over there too.

Something that surprised me was when Eileen described that the trend had grown so popular that even the janitor in the office has started matching their bes and other pieces of clothing with their female co-workers on Wednesdays. However, Eileen says it wasn't too popular when the color of the week was pink.

Personally, I think this is such a fabulous idea that I will immediately try to implement it in my office, Student Activities, to get the sense of community Eileen spoke so warmly about. I truly believe it to be a great ice-breaker from department to department, and also a way to make employees feel motivated to get up in the morning and get dressed for work. As a Swedish fashionista, I applaud your great use of fashion sense in such an innovative way.

---

Third floor, Yena Center faculty and staff wearing Aqua themed clothing. Photo courtesy of Eileen Hawkins.

Remember: For great success you have to dress! XOXO

Annie Chanon

A Taste of India

Taste of India on Wickenden Street is probably the most authentic Indian restaurant in Providence. It is a very small restaurant with a capacity of no more than 60 people. The ambiance is a usual warm and yellow atmosphere displaying the rich and colorful culture of India along with the smell of spices and flowers.

The waiters were very friendly, patient, and helpful with recommending dishes; the waiters were also from India, fulfilling the picture of an authentic Indian restaurant. I ordered several different dishes to get the full taste and diversity of the Indian cuisine. Butter Chicken, Chicken Masala, Lamb Roganjosh, Lamb Keema, Paneer Mutter, Lamb Korma, Fish Curry, and Shrimp Masala; all along with two baskets of different Nan bread; which is traditional Indian clay oven baked bread. The dishes were explicitly authentic and incredible, expressing their individual flavor of spices which are known by the Indian cuisine. The portions served were generous with Persia varying from $10 to $16.

The Taste of India is a must for adventurous food lovers enjoying a very different meal with more than a dozen spices in one dish. Make sure to go out there and experience a journey to the heart of India. 5 stars

Persian New Year

Nowruz, the name of the Iranian New Year, also widely referred to as the "Persian New Year" is celebrated on the 21st of March, announcing the first day of spring. This year, many I-Club students of Johnson & Wales came together and organized the Persian New Year festivities in Pepsi Forum on March 20th. It is celebrated in multiple different countries worldwide, and now the first time at Johnson & Wales University. The festival was a total success with more than 50 students attending. The atmosphere was one to a traditional Persian New Year. The music, food, drinks, and set up was beautifully organized. The event started with a famous poem by Saadi that is presented at the beginning of every New Year’s festival:

Human beings are members of a whole, In creation of one essence and soul.

If one member is afflicted with pain, Other members uneasy will remain, if you’ve no sympathy for human pain, The name of human you cannot return!

Flavored Rice with Oriental Onions

Persian New Year, Table setup. Photo courtesy of Daniel Lorenz.

If one member is afflicted with pain, Other members uneasy will remain, if you’ve no sympathy for human pain, The name of human you cannot return!

Sticking to traditions, a traditional table setting of Nowruz called the Haft Seen, or the seven ‘S’s. These components symbolically correspond to seven elements of Life, namely Fire, Earth, Water, Air, Plants, Animals, and Humans. In sequel, one of the Iranian scholars spoke about the diverse culture, Kurde, Turks, Baluchis, Gilaks, Persians, Arabs, and Turkmen, living in Iran. Just as the culture is diverse so is the religion ranging from Christianity to Islam, Judaism, and Zoroastrianism. Due to the widely spread festival, the UN’s General Assembly recognized the Persian New Year as a spring festival of Persian origin in 2010 which has been celebrated for over 3000 years. The event ended with a lot of singing and dancing at McFadden’s where everyone mingled and had fun.

Elections will be held from April 16 - 19. To vote log on to JWU Link, click on the Student Life tab, and click on Involvement Network.

Emily Ciliberto
Position: President
Class: Junior
Major: International Business

I would like to be a SGA leader to continue to improve the Association. This year we made many great improvements and I would like to continue moving forward with them.

I would like to see SGA address the separation between students and administration. This year it was worked on but I believe there is a long way to go. Bridging this gap will bring the University as a whole closer together and together we can make things happen faster.

I have previous experience on the executive board of SGA that I believe will help me in the position of president. I am a very focused and driven person. Helping to establish new SGA goals has given me the drive to continue to make them happen.

Marcus Smith
Position: Vice President
Class: Sophomore
Major: Finance

I would like to be Vice President because I feel that I can strengthen ARC and SGA. I began at JWU by participating in the First Year Experience program.

My communication skills and my ability to learn from others would make me a good leader of SGA. I also have been co-committee chair under two vice presidents.

An important issue I would like to see SGA address would be helping to involve commuter and international students on campus. I would also like to see Johnson & Wales students more involved in SGA.

Ashley Slater
Position: Vice President
Class: Sophomore
Major: Hotel & Lodging Management

I would like to be a SGA leader because I greatly enjoy being a representative of my peers. I feel as though SGA can make great changes throughout the university and I want to be part of success.

A main issue that I would like to see SGA address would be taking a step in the direction of making Johnson & Wales a greener, more eco-friendly environment. I would like to see SGA supporting a campaign of an energy efficient and minimized waste producing university.

I would be a good leader on the SGA team because I possess a high level of motivation in addition to organization. These two main qualities combined with my creativity can help to generate new ideas and solutions in order to benefit the campus and then implement those ideas in order to see them happen.

Marquis Cooper
Position: Treasurer
Class: Sophomore
Major: Finance

I would like to be a leader in SGA to have the opportunity to apply the knowledge I have gained as a senator over the past year. I would like to use the leadership skills I have acquired through the programs of Student Activities to be a benefit to the association and to the student body.

I would like to establish standard funding amounts for annual events that clubs and organizations hold on campus. I would also like to restart the funding request workshops for student representatives to come and learn about how to request funding for their activities. By doing this, I would be able to address the issue of familiarizing student leaders with the appropriations process.

Good qualities that I could bring to the leadership of SGA include patience and organization. I will bring an open mind a willingness to take assigned tasks from my superiors. I can also contribute a thorough knowledge of the appropriations process and the routine procedures of SGA from my experience as a senator.
Nate Keeney  
**Position:** Speaker of the Senate  
**Class:** Junior  
**Major:** Sports/Entertainment & Event Management

Over the past year, SGA has seen a lot of growth and improvement with the JWU community. I would like to continue this improvement and use it to start being more involved with JWU.

I would like to see improvements made with student dining regarding meal plans, variety of dining options and times for operation.

I am a great listener and speaker. I want to be able to listen to the problems of the students and communicate them to the proper channels to initiate change for our students.

Morgan Dillon  
**Position:** Senator  
**Class:** Sophomore  
**Major:** Restaurant Food & Beverage Management

I feel that since I have started at JWU, I have noticed certain issues that need to be addressed. I'd like to make a difference and take it upon myself and encourage others to help solve some of these issues. As a SGA Senator, I am confident of the role I can play.

Recently at our Senate Meetings it has been brought to our attention that International Students are not fitting into the JWU community to the level that they would like to. Since this has been addressed I have been working with the Cooking Asia Club and the International Student Club in order to collaborate for an event. Having been appointed only last trimester, this is my first project and I would like to continue working on it.

I am an extremely open minded and creative individual. I love working in groups and brainstorming ideas. While I love to share my own opinions, hearing others is just as important to me. I would say that I am very insightful when it comes to deciding what it is that the student body wants, which will help SGA decide what it is that we should be focusing on.

Kyle Brigandi  
**Position:** Senator  
**Class:** Junior  
**Major:** Graphic Design & Digital Media

I would like to be an SGA leader because it provides a great opportunity to help students with their problems and communicate them with administration.

An important student issue I would like to see SGA address is transportation. I also would like to see SGA address the changes to Renaissance Hall.

I enjoy volunteering and assisting students with their problems. Because of these qualities, I believe that I would make a great SGA leader.

Alexander Mark  
**Position:** Senator  
**Class:** Sophomore  
**Major:** Hotel & Lodging Management

In my first year at JWU, I have tackled numerous positions for many important events and organizations on campus. Also, I have a major background in Student Government and I am very comfortable with this management environment and all that it entails.

An important issue I would like to see SGA address would be trying to connect the students of JWU to what happens on campus in a better way. There should be a better way to motivate students to participate on campus wide events instead of just offering reward after reward to those individuals that are already proactive on campus.

I am very organized which is my most desirable and well managed quality. I also believe I have strong communication skills. I am comfortable talking to people whether it is in small groups or in large settings. This skill comes from my theatre background. I also have held many leadership positions and have a lot of experience to offer to SGA.

Tabitha Hawk  
**Position:** Senator  
**Class:** Sophomore  
**Major:** Baking & Pastry Arts

I would like to be a part of SGA to improve the life of student living both on and off campus and become more involved within the school.

One issue I would like to see SGA address is the difference between Safety & Security and Transportation and to clarify who should be notified in unique situations.

I am a good listener, optimistic, and a good communicator. All of these will help with SGA because I can hear problems of students, and stay optimistic about the issue and communicate with others.

Tekelsha Busby  
**Position:** Senator  
**Class:** Senior  
**Major:** Business Management

I would like to become a SGA leader because I know what impact I have on the community within my Greek organization and I would like to extend my efforts to make a contribution to the entire campus as well.

Two important student issues that I would like to see SGA address is the lottery system for parking and dining facilities closing times.

The quality of leadership is what I believe would be a good contribution for SGA. To me leadership means knowing how to get your point across and take a stance. In order to do this you must first be a good listener and follower. You can’t be afraid to make mistakes and you have to have the perseverance to keep trying.
1. Lupe Fiasco – LightWork (Feat. Ellie Goulding, Bassnectar)
Lupe Fiasco, our Wildcat Wahoo performer, flows over a melodic beat remixed by Bassnectar. Fiasco, never to shy away from professing his thoughts seems to be releasing solid tracks here and there. Also check out “American Terrorist III.”

2. Drake feat. Lil Wayne – HYFR
I’ll let you figure out what the acronym means but this music video is LOL. He re-creates his Bar Mitzvah complete with cameos from DJ Khaled, Trey Songz, and of course Lil Wayne wearing a panda mask.

3. Diplo – Express Yourself feat. Nicky Da B
Diplo brought that New Orleans bounce funk with a vengeance! The music video showcases The Big Easy that tourists don’t get to see. It’s hyperactive, off-the-cuff, and is a must listen.

4. Mag Myers – Monster
You heard it here first. Mag Myers may just blow up this year. “Monster” is a powerful track, reminiscent of “Rolling in the Deep.” Yeah, it’s that good.

5. Datsik & Infected Mushroom – Evitulion featuring Jonathan Davis
Jonathan Davis, of Korn fame, lays down haunting vocals on this one. It seems that dupstep has taken on a more melodic approach but Datsik & Infected Mushroom are here to save the day. They get back to the roots on this one, hard, pulse pounding and in-your-face.

6. The Cataracs – All You (feat. Kaskade & Waka Flocka)
It seems that every genre is now being put in a blender where a beautiful concoction pours out. This one is no exception. The Cataracs & Waka Flocka

7. Sex Ray Vision – My Beach House
“My Beach House” reminds me of “Levels.” It’s just got it. SRV have released some unique remixes in the past and have just released their own music recently. “My Beach House,” along with their whole new album can be downloaded for free from Soundcloud.

**PROFESSIONAL STUDENT HOUSING**
ALL Housing for ONLY THE SERIOUS & SOPHISTICATED STUDENT!

**NOW LEASING**...offering 5 payment options!
Free Summer Stays! ONE Year Lease is NOT Required, stay for Only 1 Term!

Suites Include ALL for ONE low price beginning at $624

AIGA & Anchor Student Showcase

Andrew Caliga
Editor-in-Chief

On Thursday, March 29th, AIGA JWU held their first ever Student Showcase at Anchor Gallery in Providence. The event displayed everything from package design, posters, and campaigns, to web design and even mobile app design.

The event was a huge success and the turn out was even better. The work displayed consisted mostly of sophomore to senior work and even some alumni work. The Gallery was only open for two hours but the show was such a success that Anchor has invited AIGA JWU back for a month long exhibit in the near future.

Also in attendance were faculty and staff of the School of Technology. Probably the most honorable guest of the evening was corporate designer Malcolm Greer. Greer is most famously known for his United Health Care logo design, Brown University designs, as well as designs for other well-known companies like American Express, GTECH, CVS, Mohawk Paper Company, and even Microsoft.

Overall, AIGA has proved that Johnson & Wales has more to offer than culinary and business. We have a tremendous amount of talented designers and coders that will shape our future. From billboard ads to websites, or even the soda you drink, Johnson & Wales is sure to have designers with big things ahead of them and could possibly be designing the things you will use in the future.
