THE REAL STORY BEHIND BUFFALO'S STYLE CHICKEN WINGS.

It happened on a cold winter's night at the Anchor Bar in Buffalo, New York. The owner was tending bar while his customers sipped beer and talked about the weather outside. Quite frankly, the weather stunk. What made things even worse was the owner's terrible discovery: He didn't have a thing to serve his hungry customers. That's when his mother slipped into the kitchen to create what would become one of the finest foods on the planet. She deep-fried some chicken wings, doused them in hot sauce and served them all up with bleu cheese. Turns out, she didn't just make a discovery that night. She made history. So, in 1985, we opened the very first Buffalo's Cafe with the very same "World Famous Wings" recipe that was created on that cold night in Buffalo. We take pride in the quality of all our menu items and together with our friendly staff and casual West Texas atmosphere, we promise your family and friends will have one heck of a good experience at our cafe.
